Club Ranking

Background

Club Rankings are based on a scheme devised by Ruth Eyles in 2009, used in the Midlands TT District untill 2018. The ranking provides a means for club riders who compete in CRC time trials to get a picture of their performance, relative to other riders, over the past 12 months. Riders achieve points based on their placing in time trials. CTT adopeted a similar model ranking strategy (with slightly different thresholds) in 2018 superceding the Midlands system.

Calculation

Points are scored by every CRC rider who completes any CRC Club time trial. Points are based on placings. The first placed rider receives 200 points. The remaining riders score points in proportion to the number of riders that they have beaten. The formula for calculating your points score is: **((Number of people you beat or equal + 1) ÷ (number of finishers)) x 200.** Your best 5 points scores are added to give your ranking points total out of 1000.
