

On a night when there was no wind it seemed like it was a good night for some personal best times.

It was very unlucky for Dave Watson who transmitted so much power it locked up his chain which in turn broke his gear hanger bringing his ride to a complete stop after about 5 yards. With the National 100 this weekend its all go to get the repair work done in time.

However, first rider on the night was Richard Howes with 28:03, 2nd Colin Miller 29:06 and 3rd Darren Atkins making one of his rare appearances in a time trial with 29:07.
