

Hi All

A warm sunny evening for a change, with a strong wind for the start and finish legs of the course.

David Watson came out on one of his rare occasions and gave a superb performance going around the 11.5 hilly circuit in 27:34. His nearest challenger being David Boughton with 28:41, who is top of the circuit point's series with 27 points. Martin Swales produced a 29:39 ride being behind Paul Moss by 1 point in the points series with 14 points.

A search party was sent out for Don when he did not turn up at the finish, apparently he had gone of to Hunningham instead of turning left for Princethorpe at he 2nd island on the course.

All the best roger Gillitt
