

Hi All

Another sunny evening for us with a steady breeze from the NW. Richard Howes (22:38) took the honours in a field of 13 riders Mike Jones was 2nd. with (24:23) which was 26 sec's slower than last week when he did a PB of (23:57) after an 11 min. late start. David Hughes was the 3rd. place rider with (24:34).

There are very few riders this year who have completed "five training 10 events" with next week being the last one. There are only seven riders who have completed four or more "training 10 events" out of a possible eight, three being cancelled because of bad weather, out of a total of 11.

All the best roger Gillitt
