

With rain starting as the riders were signing on it looked like it was going to be a very wet ride, but by the time they got to the start line it had stopped. Riders leaving the timekeeper were heading into the wind which was the hardest part of the course. Nobody told Dave Watson about the head wind as he still did a very good ride, winning the event with 22min 27sec. Richard Howes was hot on his heels with 23min 08sec and Steve Hopper with a 25min 23sec was in third. Everyone finished the evening having a hot cup of tea and cake before departing and heading home.
