

Hi All

What a wet evening, on off on off with rain and thunderstorms all around the Princethorpe course. Ten intrepid riders took part, With three riders in the 23rd. minute, R.Howes 23:03, D.Boughton 23:10 and M.Swales 23:29.J.Grumbley although starting number 1 pulled his wheel over and started late. Their ride was not as wet as expected.

In answer to the question how are the points allocated (its no secret no one has taken any interest before).

For both the Handicap and Circuit Plaques the points go 10 for the fastest time on H'cap and fastest Circuit time to the 9th. rider who has 2 points, the 10th rider and all those that rode get 1 point each.

When there are riders on equal time they each get the points allocated to their position while riders who follow them get a lower placing and less points.

All the best  
Roger Gillitt
